COURSE ADDENDUM

Participant's Name: Jim Lauffenberger

Participant's License #: _____

Telephone #: (_____) _____

Date Course Completed: May 29, 2011

Course Title: Architectural & Security, Gate & Fencing Systems

Course Number: AEC379 (AM-EN-37903-0112)

Course Description: Provides an overview of gate and fencing systems which are both functional and decorative, and are designed to meet modern security and design requirements while harmonizing with the surrounding environment.

Learning Objectives: Identify a wide range of exterior and interior applications of today's fence and gate systems based on their functional, decorative, and security requirements.

Discuss today's fence and gate systems in terms of their composition, materials, coatings, and finishes.

Classify gate track configurations, hardware, hinges, and locking mechanisms.

Identify the performance elements of various types of fencing systems, and the attributes of a variety of infill panel designs.

Assess factors such as security, efficiency, aesthetics, and the surrounding environment, and specify the most appropriate gate and/or fencing system for a specific application.

Number of Course Hours Completed: 1 LUs

Name of Course Provider: AEC Daily Corporation

Name of Course Trainer or Educator: Ludwig Weber, Sales Manager
