COURSE ADDENDUM

Participant's Name: Jim Lauffenberger

Participant's License #: _____

Telephone #: (_____) _____

Date Course Completed: May 24, 2011

Course Title: Specification Guidelines — Assessing and Comparing Paint

Course Number: AEC430 (GL-EN-43001-1011)

Course Description: Provides an overview of ingredients of paint, how these ingredients can affect paint quality, and what to consider when specifying paint for a project. Included are discussions on how to compare paints across different manufacturers and tips to avoiding problems with a project down the road.

Learning Objectives: Identify some key ingredients that affect paint quality.
Explain what to consider when selecting a paint or coating for a space or substrate.
Evaluate guidelines to follow when specifying paint to avoid problems with a project down the road.
Define how to compare paint and coatings from different manufacturers using data sheets.

Number of Course Hours Completed: 1 LUs

Name of Course Provider: AEC Daily Corporation

Name of Course Trainer or Educator: Peg Collins, CSI, LEED-AP, Architectural Specification Representative

Course Trainer/Educator's Telephone #:

Instructor Bio: Peg Collins graduated with a BA in Economics from Smith College in Northampton, MA. She spent 13 years in insurance claims litigation, business systems design and analysis and testing. She also has 10 years of experience teaching high school math and English. Peg is currently with Glidden Professional, a member of AkzoNobel, as an Architectural Specification Representative. Peg is also a LEED AP.
